So Long

The Suicide Machines

You never considered how I feel
Show me something that's real
You never show me what's inside
The truth can never hide
How could such a simple argument turn into this
I thought that I knew everything about you
I pushed that flashing red button that set you off
I guess I didn't really know you as well as I thought I did
I guess that I figured out everything about you
I guess I know all there is to know
I guess that I figured out what makes you do all the things you
 do
I guess I know everything there is to know
You know you make me want to say so long
You know you make me want to say goodbye (goodbye)
How could you do all the things that you've done to me
And still have the nerve to say we're still friends I don't kno
w
They tell me that it's all a part of growing up and being scare
d
When I was down and out where were you
You weren't there!
