

War Profiteering Is Killing Us All

The Suicide Machines

War profiteering (is killing us all!)
Capitalistic intent gone wild,
How much further down will we alive?
Death of 1000 we have mourned,
Capitalist scumbag, you've been warned.

We'll do what we gotta do to take our country back.
By any means necessary, we'll take our country back
Cause

War profiteering (is killing us all!)
Revolution's in the air,
Our government's in need of repair.
Raise your voice, it's a call to arms,
Preemptive though ends further harm.

It's what you do, what you think, what you say,
What you do, what you think, what you say, let's change it.
There's no antidote?
That's a fucking joke,
A shock to the head that'll cure the problem.
