

All My Friends

The Summer Set

We were drinking on a Tuesday
We were shutting down the bar
You were screaming to Nirvana
Like the Kurt Cobain you are

All my friends say "That girl's lost it,"
Turned to me but I was gone
We were halfway to your apartment
Making out on someone's lawn

We were looking for some girls
And then we got some some
Skinny dipping in your neighbor's hot tub
How could anybody say that this ain't love?
How could anybody say that this ain't love?

My mind says I'm a dead man walking
So I'mma let your body do the talking
How could anybody say that this ain't love?
How could anybody say that this ain't love?

All my friends don't want me
To be with you, to be with you
They think that you're crazy
And I do too, yeah, I do too

But I don't give a fuck tonight
Crazy is what I like
They don't know shit 'bout what I want
They don't know shit 'bout what I want

Yeah, all my friends don't want me
To be with you, to be with you

We couldn't make it to the bedroom
So you pushed me to the ground
Said, "I must confess this ain't my house
But my ex is not around."

We were looking for some girls
And then we got some some
Skinny dipping in your neighbor's hot tub
How could anybody say that this ain't love?
How could anybody say that this ain't love?

My mind says I'm a dead man walking
So I'mma let your body do the talking
How could anybody say that this ain't love?
How could anybody say that this ain't love?

All my friends don't want me
To be with you, to be with you
They think that you're crazy
And I do too, yeah, I do too

But I don't give a fuck tonight
Crazy is what I like

They don't know shit 'bout what I want
They don't know shit 'bout what I want

Yeah, all my friends don't want me
To be with you, to be with you

Promise that this is the last time
Promise that this is the last time
Promise that this is the last time

(She's crazy)

Promise that this is the last time
Promise that this is the last time
Promise that this is the last time
That I listen to my friends

(Sing!)

All my friends don't want me
To be with you, to be with you
They think that you're crazy
And I do too, yeah, I do too

But I don't give a fuck tonight
Crazy is what I like
They don't know shit 'bout what I want
They don't know shit 'bout what I want

Yeah, all my friends don't want me
To be with you, to be with you, yeah

Promise that this is the last time
Promise that this is the last time
Promise that this is the last time
That I listen to my friends (2x)
