

# Ready, Set, Go!

## The Summer Set

Hey there,  
Let me break it down,  
You're the song in my head.  
Move a little bit closer  
I don't wanna miss a beat.

Take everything you know,  
Throw it out the window.  
We can drive through the streets, the space between  
You're the only girl I'll ever need.

Give me looks,  
Give me everything you've got.  
Ready set lets go  
Get on your feet I'll take you to the floor  
Oh, here we go

When everything's alright  
I'll take the weight of the world off your shoulders  
Let's make it count, oh, let's make it count  
I'll show you that your worth it.

Take everything I know  
I'll throw it out the window.

Give me looks  
Give me everything you've got  
Ready set lets go  
Get on your feet I'll take you to the floor  
Oh, here we go!

We're gonna get closer now,  
Just a little bit closer.  
We're gonna get closer now  
Just a little bit  
Just a little bit

Give me looks  
Give me everything you've got  
Ready set lets go  
Get on your feet I'll take you to the floor  
Oh, here we go

Give me looks  
Give me everything you've got  
Ready set lets go  
Get on your feet I'll take you to the floor  
Oh, here we go
