

# The Way We Were

## The Summer Set

We used to rule the world  
Every kiss was an adventure  
Every night with you was like a holiday  
How we used to play like two birds of a feather  
Making promises we swore we'll never break  
Why did we say goodbye?  
I should've held on tight  
Let's go back tonight

Yeah  
You'll watch my world forever  
I know you still remember  
How we felt before  
Yeah  
We should be together  
'Cause nothing could be better  
Than the way we were  
Baby let's go back to the way we were

We spend the day in bed  
Not thinking of the future  
We were so in love we didn't even care  
and I still can't forget when you danced around my kitchen  
With a box of wine in your underwear

Yeah  
You'll watch my world forever  
I know you still remember  
How we felt before  
Yeah  
We should be together  
'Cause nothing could be better  
Than the way we were  
Baby let's go back to the way we were

Let's unblock the cap  
This time we'll take you then  
You can stay the night, this time I won't let go  
And when the morning comes, we can start all over and over again

Why did we say goodbye?  
Let's go back tonight

Yeah  
You'll watch my world forever  
I know you still remember  
How we felt before  
Yeah  
We should be together  
'Cause nothing could be better  
Than the way we were  
Baby let's go back to the way we were

You'll watch my world forever  
I know you still remember  
How we felt before  
Yeah

We should be together  
'Cause nothing could be better  
Than the way we were  
Baby let's go back to the way we were
