

This Is How We Live

The Summer Set

Back from the road and I'm back at her door
I'm sleeping tonight, on another floor
'Cause when life's too fast, I take a longer road
I dust off my shoes and my dirty clothes

So you heard I'm back town
Tellin' all your friends I'm making millions now
Got a car and a new house
But too bad baby, I'm leaving the city
No if, ands or maybes driving me crazy

This is how we live
This is how we live
Ripped jeans and all
This is what we live
This is what we live for

Too weak to punch the clock and join the real world
So I wake up every night, forget what I'm told
'Cause I got all my friends with me
Yeah, an empty wallet doesn't seem half bad
When you're living your dreams

This is how we live
This is how we live
Ripped jeans and all
This is what we live
This is what we live for
All the nights spent chasing days
I've made it this far
I'm making my way

Let's live
live for the city life
Take to the streets like we're kings of the night

Let's live
Well, this may not be love
But when I'm standing at your door you'll know

This is how we live
This is how we live
Ripped jeans and all

This is how we live
This is how we live
Ripped jeans and all
This is what we live
This is what we live for
All the nights spent chasing days
I've made it this far
I'm making my way

This is how we live
This is how we live
Ripped jeans and all
This is what we live

This is what we live for
