Passing You By

The Sunday Drivers

You're singing my material girl while I'm just trying to break you heart but it is so hard it is so hard

I told you that I liked your hands just to cause you little heart attacks but it is so hard it is so hard

I'm not doing fine passing you by to pass you by I need to see you I need to see you

Remember when you cut your hair I am the one to notice it first don't forget it don't forget it

I wonder what you think of me when you see me in a magazine I see you smiling see you smiling

I'm not doing fine
passing you by
to pass you by i need to see you
I need to see you
