

Panic Attack

The Sunshine Underground

Oh oh ohh you've been needing a place to stay
But watch yourself dont hide away
In a panic you call yesterday

Oh oh ohh well your memory's been letting you down
You ask for what to do in this town
Like you never saw it coming
But oh my God

When all these governments take places
That you can never understand
When all these things that you believed in
They never got the upper hand
Well you may find friends in higher places
But you got swallowed by your town
It keeps you hanging around for ages
Just to make sure you keep your head down

Oh oh ohh you've been needing a holiday
To stop yourself from hiding away
In a panic you call yesterday

Oh oh ohh well your memory's been letting you down
You ask for what to do in this town
Like you never saw it coming
But oh my God

When all these governments take places
That you can never understand
When all these things that you believed in
They never got the upper hand
Well you may find friends in higher places
But you got swallowed by your town
It keeps you hanging around for ages
Just to make sure you keep your head down
Yeahhhh
But oh my God

When all these governments take places
That you can never understand
And all these things that you believed in
They never got the upper hand
Well you may find friends in higher places
But you got swallowed by your town
It keeps you hanging around for ages
Just to make sure you keep your head down
Yeahhhh
