

Something In The Air

The Superjesus

Call out the instigator
Because there's something in the air
We've got to get together sooner or later
Because the revolution's here

And you know it's right
And you know that it's right
We've just got to get it together
We've just got to get it together now

Lock up the streets and houses
Because there's something in the air
We've got to get together sooner or later
Because the revolution's here

And you know it's right
And you know that it's right
We've just got to get it together
We've just got to get it together now

And you know it's right
And you know that it's right
We've just got to get it together
We've just got to get it together now

Hand out the arms and ammo
We're going to blast our way through here
We've got to get together sooner or later
Because the revolution's here

And you know it's right
And you know that it's right
We've just got to get it together
We've just got to get it together now

And you know that it's right...
