

Stick Together

The Superjesus

I know what I'm facing and what I'm facing don't know me
And I'll wait and I'll tell you once again
If you only gave the guidelines, I'd be better off knowing when
I'd be better off knowing when

Burning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together
Now, stick together now

I've seen what I'm doing and what I'm doing is best for me
And it's all gotta go before we're done
It's the only kind of opinion that I could give to anyone
I could give to anyone

Burning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together

Burning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together
Now, stick together

Know what you're coming for
No need to tell you no more
A little bit in store keeps us guessing

Know what you're coming for
No need to tell you no more
A little bit in store keeps us guessing

Burning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together

Burning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together now
Stick together now, stick together now
Stick together now
