

## Get Out Da Way

### The Supervillains

Step off the train tracks  
Get out da way  
Sometimes you gotta take a step back  
Sometimes you got to wait  
Take a different path  
To get to the same place  
So when the music stops  
We're all the same

Take a little time,  
Maybe take a little something  
Take a vacation from your mind  
It's not the best, but it's better than nothing  
It's a reflection of the time

Step off the train tracks  
Get out da way  
Sometimes you gotta take a step back  
Sometimes you gotta wait  
Take a different path  
To get to the same place  
So when the music stops  
We're All the Same

Look at what you got, instead of what you don't  
Look at what's ahead and not behind  
Look at all the ones that will never see tomorrow  
And be happy that you're alive

The peaks and the valleys  
The highs and the lows  
It's just the movement of the tides  
Back and forth, push and shove  
It's just the ebb and flow  
Just don't get left behind

Step off the train tracks  
Get out da way  
Sometimes you gotta take a step back  
Sometimes you gotta wait  
Take a different path  
To get to the same place  
So when the music stops  
We're all the same
