

Moonshine

The Supervillains

Beautiful weather, not a cloud in the sky.
When we're together I'm a hell of a guy.
And by the way that I feel,
Things are gonna be just fine.
I've got a moonshine woman put the wind in my sails, we get pulled over we could wind up in jail.
And by the way that I feel, I don't mind doing time.

Now woman hold my hand, and don't ever let it go, don't ever let it go. Its like water under the bridge. I look forward to tomorrow...

When things come together, and our planets align.
You and I coincide for this moment in time.
And by the way that I feel,
Things are gonna be just fine.
Well its closing time, so put your lips close to mine.
Cuz by the way that I feel, things are gonna be just fine.

Woman hold my hand, and don't ever let it go, don't ever let it go. Its like water under the bridge. I look forward to tomorrow...

When I step outside, the skies are blue, the birds are out too, cuz I have you. And by the way that I feel, things are gonna be just fine.
