

You Got Me

The Supervillains

Pretty baby don't start a fight
I can see it in your eyes but please don't do it tonight
Don't say you wanna leave cause I've got plans for you
Well if your gonna leave then screw you anyway
I can find a new girl by the end of the day
She won't leave till I tell her to get out

Why can we just enjoy each other?
We're always fighting all the time
We could stop and be lovers
Or we could break up and that would be just fine

Girl when I'm with you I'm high
Like I've been smoking sensimilia all night
My arms get heavy and my eyes get stuck
I feel my knees shake and I know I'm hooked
Please don't tell me It's time to go
I'm all alone and I need you so
Tell me you'll stay the whole night through
Girl you got me jonesin for you

Pretty baby don't get so mad
When I say I gotta leave and go on tour with my band
When I get back things will be just fine
If your not here when I get back
Like I said before it will be no sweat off my sack
It's too bad I thought we were a good match
