

Bend A Little

The Supremes

I'm not asking you to change
You are what you are
But I can only give so much
It only goes so far
And I know that we both do things
And don't it meant were wrong
Sometimes if we feel guilty,
We'd be much better off

We love each other
Deep down inside
Why not talk our problems out
And push our pride aside?

Bend a little, give a little
That's all we gotta do
Bend a little, give a little
That's all we gotta do

You've always have to be someone
To give more than to share
But I won't ask that much of you
Just show me that you care
I know there are things I won't do
That you wish I would
If you would meet me halfway,
I believe I could

Let's not try to hold off
On your terms or mine
Before we lose each other
Let's reach up on your minds

Bend a little, give a little
That's all we gotta do
Bend a little, give a little
That's all we gotta do

Bend a little, give a little
That's all we gotta do
Bend a little, give a little
That's all we gotta do

Bend a little, give a little
That's all we gotta do
Bend a little, give a little
That's all we gotta do

Bend a little, give a little
That's all we gotta do
Bend a little, give a little
That's all we gotta do

Bend a little, give a little
That's all we gotta do
Bend a little, give a little
That's all we gotta do
