## **Color My World Blue**

**The Supremes** 

My love is blue without you So color my world blue I still thank the Lord above (for you, baby) Oo-ooh, yes I do

'Cause when you came into my life You set everything right just to make me happy (happy, baby) You served me hand to foot And did everything it took just to keep me happy (happy, baby) But I, like a fool, (fool) Did you wrong (did you wrong) Now it's hard for me to carry on

Without you, color my world blue 'Cause I'll never, never, never live without Without you, color my world blue 'cause I'll never, never, never live without Without you

Can't live without you So color my world blue I still place no one above you Even though you're gone (even though you're gone) Gone, gone, gone

'Cause I remember the times I thought I was dying No one can help me straighten out my life You stood by my side with tears in your eyes You told me day and night how much you loved me I got on my feet, told you to leave (please start walking) And now I'm living in misery

Without you, color my world blue 'Cause I'll never, never, never live without Without you, color my world blue 'Cause I'll never, never, never live without [repeat 'til fade]
