## He's My Man

Hey! Yeah--00-00-00-00-00h! He's my man As I go through the week Counting all the days Seeing the same old faces Seeing the same old way-ay-ays Now other men mean well But always bring me down They have nothing new to say They're still hangin' 'round And when I need cheering up When I'm feeling kinda low He calls says get dressed And I put on my best Being in his arms brings out all my charms And you can see us glow wherever we may go He's my man! All I need is that he shine his smile on me When I'm all alone needing company And he's the only man who can make me feel That his love is honest That his love is real And when my spirit's sinking down Need a lift off the ground He calls says get dressed And I put on my best Being in his arms brings out all my charms And you can see us glow wherever we may go He's my man! He and I belong together He and I will be forever My friends all say he's no good But they'd have him if they could But he's my man! Oo-oo-oo-ooh! He's my man Ah-ahhhhhhhhhhhhhhh He's my man He's my man
