I Want A Guy

The Supremes

I want a guy to love me One who will love me completely Not like the last Who's in the past Who broke my heart and made me cry

I wish that he would come and kiss me And tell me that he misses me I know someday He'll come my way And I'll never be lonely again

I don't need riches like diamond rings As long as he loves me That's everything As long as he holds me tight As long as he treats me right I'll never let him out of my sight

I want a guy with a love that's true One that I can tell my troubles to He'll be my guy And stay by my side I'd be so glad if I only had A guy, a guy Why can't I have a guy A guy
