

# Precious Little Things

The Supremes

A comfort in word when I'm feeling low  
A roof over my head when there's nowhere to go  
A gentle touch  
When the world is hard and dreams are broken  
Ears that don't hear  
When the words of generous minds have spoken  
Precious little things (precious little things)  
You mean the world to me (those precious things)  
Mean the world to me (those precious things)

A delicate smile when laughter seems a strain  
And you're my stopper in life's tub  
When I'm headed down the drain  
Mmm, a caring eye that sees me as I am  
A tower of strength  
Though you're gentle as a lamb  
Precious little things (precious little things)  
You mean the world to me (those precious things)  
Mean the world to me (those precious things)  
Yeah

Welcoming arms when I've been wrong  
Mm, yeah-eah  
An unselfish heart that shows me I'm belong  
Those extra special things you bring a quite of few  
This special part of life I share with only you  
Precious little things (precious little things)  
You mean the world to me (those precious things)  
Mean the world to me (those precious things)  
Those precious little things you say  
Precious things you do each day
