

## Then We Can Try Again

The Supremes

When the path to your heart's clear and you let no one else near

Then we can try it again, don't want to cry again

When your love for me is true and I can surely depend on you

Then we can try it again, I don't want to cry again

I'm leaving though still hoping that you'll find a way

To bring me back to you and make me want to stay

But you let an intruder threaten to make me a loser

So I'm giving you some time to decide things in your mind

On the day that you prove to me that you can love with sincerity

Then we can try it again, don't want to cry again

If you can patch up my broken world, make me believe I'm your only girl

Then we can try it again, I don't want to cry again

All you made me do I did it against my will,

Cause a day without you just makes my life stand still

But if you can help us, then in love I'll put my trust

And if love can prove us wrong, I'll come back where I belong

Baby, (then we can try it again) ooh baby (then we can try it again)

Ooh (then we can try it again), oh baby (then we can try it again)

When you make up your mind to come and tell me I'm the only one

Then we can try it again, I don't want to cry again

And the minute I hear your voice telling me I'm your only choice

Then we can try it again, I don't want to cry again

When the path to your heart's clear and you let no one else near

Then we can try it again, I don't want to cry again

Oh yeah, when your love for me is true and I can surely depend on you

Then we can try it again
