

Together We Can Make Such Sweet Music

The Supremes

Why should you go to the left?
Why should I go to the right?
Why should we argue this way?
Why should we fuss and fight?

Together we can make such sweet music
Together we can make it right
Together we can make such sweet music
Togehter we can make it right

When you're feeling bad, I'm feeling it, too
Whatever your dreams are, I'll share them with you
Though life's last ending I'll stay by your side
I am your sunshine, you are my pride

Together we can make such sweet music
Together we can make it right
Together we can make such sweet music
Togehter we can make it right

We have found the answer, take my hand
Ooh, with our love, the world would understand
A love so true will last and last forever

The love we share (Yes, baby) is locked in our hearts
And there is nothing that can tear us apart
Wherever you are is where I'll be
To keep this love you give to me

Together we can make such sweet music
Together we can make it right
Together we can make such sweet music
Togehter we can make it right
[repeat til fade]
