

# We Should Be Closer Together

The Supremes

You, you are here and so am I  
We must try, we must try, we must try  
To recapture days gone by

Something here in this room  
All alone with you next to me  
The silence is so strong  
I'll clear your mind, begging to be free  
I no longer going through changes  
Hopefully for the better  
What stop, not progress  
We should be closer together, you know that I care

We should be closer together  
But if you want to go, I care for you  
Just remember what I told you  
Should you stay?  
Love will find a way

Like are you  
You're holding me, but not with your heart  
I'll reach out to touch you  
I just want to feel you, knowing we're worlds apart  
But, baby, if love minus the world  
Our dreams will never, never shatter  
Find yourself and you'll find me  
We'll be closer together

Ooh baby, we should be closer together  
Closer together  
Ooh baby, baby, we should be closer, closer  
Closer together, yea  
Ooh baby, we should be closer  
Closer together  
Ooh baby, we gotta be closer, closer  
Closer together  
Ooh baby, baby, baby, we gotta be close  
Ooh! Closer together, yeah  
Ooh baby, ooh baby, ooh baby, ooh  
Closer together, yeah  
Closer, closer, we gotta be  
I trust in you  
Closer together
