## Who Could Ever Doubt My Love

## **The Supremes**

Who could ever doubt my love? Who could ever doubt my love?

I've been falsely accused Of being untrue to him And it's not so But it's the way he's misjudged me That really hurts me so When I've been nothing but good to him Forsaking all others Giving my love to him Who could ever doubt my love?

A victim of circumstance I have been But what really hurts is Instead of believing me He believed his friends When I've been nothing but good to him

Rearrange my life to please only him Who could ever doubt my love? Who could ever doubt my love?

I've been cast aside Because he believed someone's lies After I've done the best I could Still I've been so misunderstood After I've been good to him Good to him, so good to him

Who could ever doubt my love? Who could ever doubt my love? Who could ever doubt my love?
