

## Love That Conquers

The Swell Season

In the time when your word was true  
You gave your heart to the ones you knew  
And at the dawn of every day  
There was a light that you gave to me

You gave yourself to a love that conquers  
Give everything to a love that conquers

And then you came and you came real close  
You gave the heart what it wanted most  
You took your time and you made it clear  
Maybe time will erase some things

You ran away with a love that conquers  
You ran away with a love that conquers

Too long in the shadows, too long in the dust  
Give yourself to a love that conquers
