

## The Horned Goddess

## The Sword

She sits astride  
mountains tall and wide  
serpent of Earth writhes  
between glacial thighs

Holy nectar flowing from celestial teat  
lips of blood and fire gorging on the sacred feast  
bounty of the goddess offered by the avatar  
white blood spills with the singing of the scimitar

Holy nectar flowing from celestial teat  
lips of blood and fire gorging on the sacred feast  
bounty of the goddess offered by the avatar  
white blood spills with the singing of the scimitars

Upward she flies  
over mountains tall and high  
winds blow her sighs  
through dark trees and black skies
