

Must Must

The Tea Party

Do you feel the same again
A return to the within
Trying hard to make amends
For your failings and your faults
And this life
It makes you wonder

You fell no shame
To come undone

It must must
Must come like the sun
"another glimpse please, a revelation"
It must must
Must come like the sun

So you want to be my friend
Well heaven help you if you fall
You see catastrophically content
Got a witness he knows all

All my life
It's made me wonder

It must must
Must come like the sun
"another glimpse please, a revelation"
It must must
Must come like the sun
