

Submission

The Tea Party

Tell me what you want now
Come take my hand
Everything's uncertain
Let's go, let's find the promised land now

Tainted inhibitions
Sacrifice the soul
Kneeling at the stations
Oh, baby, come in from the cold now

See that sky, hear the call
Dance on fire, fade and fall
Submission

Try to guess my name
The circles number nine
Share your dark desires
I promise you I'll take my time, girl

Does it hurt you? Does it haunt you?
Does it feed you what you need?
I'll be the one who always wants you
I want you

See that sky, hear the call
Dance on fire, fade and fall
Submission

Does it hurt you? Does it haunt you?
Does it feed you what you need?
I'll be the one who always wants you
I want you

See that sky, hear the call
Dance on fire, fade and fall
Submission
Submission, fade and fall
Dance on fire, hear the call
Submission, fade and fall
Submission, fade and fall
