

# Time

## The Tea Party

Beautiful youth  
Spirit away  
Yesterday's truth left yesterday  
When hellfire froze right over

Time time enough  
Climbing the bluff  
Never again  
Not even when hellfire freezes over

Seeing us off  
Over the cliff  
Watching us fall in love  
Loving it all in loving loving love

Time for the rest of time  
How can we forget  
Time for the rest of time  
How we lovers met

Time for the rest of time  
Yeah just don't waste it  
Time for the rest of time  
In the whole sunset

Mighty will fall  
Holy must rise  
Saying it all  
Hello goodbyes  
As hellfire freezes over

Seeing us off  
Over the cliff  
Watching us fall in love  
Loving it all in loving loving love

Time for the rest of time  
How could we forget  
Time for the rest of time  
How we lovers met

Time for the rest of time  
Yeah just don't waste it  
Time for the rest of time  
In the whole sunset

Time for the rest of time  
How could we forget  
Time for the rest of time  
How we lovers met

Time for the rest of time  
Yeah just don't waste it  
Time for the rest of time

In the whole sunset  
In the whole sunset

For the rest of time  
In the whole sunset
