

## Poppies

## The Teardrop Explodes

The parachutes in my bag  
I'm throwing it over to you  
The parachutes in your hands  
But don't ask me what to do  
The poppies are in the field  
But don't ask me what that means  
The poppies are in the field  
But don't ask me what that means  
I wait around  
I wait around  
I see a change in you  
Can you see a change in me  
But I can't explain at all  
I can't explain what I feel  
Comics insult you said  
But comics are all I read  
Comics insult you said  
But comics are all I read  
I wait around  
I wait around  
I wait around  
I wait around  
Wait around  
I see a change in you  
Can you see a change in me  
But I can't explain at all  
I can't explain what I feel  
The poppies are in the field  
But don't ask me what that means  
The poppies are in the field  
But don't ask me what that means  
I wait around  
I wait around  
Wait around
