

French Kiss

The Teenagers

We're in my room
Watching dirty dancing
I didn't get anything with Orlando Bloom
'Cause I know you fancy him

If she was there
Your mum would say that everything is perfect
But she's not
Let's forget about her

God, it's already the 'nobody puts baby in the corner' moment
And you're getting emotional
Perfect timing for a

French kiss
On your soft lips
French kiss
You will love this

We're at your best friends party
Dancing to Bro zone
In the living room
I get you a vodka red bull
And lure you in the kitchen

It's quite smoky in there
Have a seat
We'll have another drink
Have some crisps
We'll have another drink
Have that cigarette
We'll have another drink

God, it's already 4 am
And you're getting tired
Your eyes don't lie
Perfect timing for a

French Kiss
On your soft lips
French Kiss
You will love this
