

# Make it happen

## The Teenagers

I know it's going to last all night  
It's the only way to do it  
No other choice to make it happen  
Make it happen make it happen

Might seem easy at first sight  
But you always talk like that  
And if you please we'll make it happen  
Make it happen make it happen

We know we're gonna make it  
You know you're gonna like it  
We know it's the new hit  
We know we're gonna make it  
You know you're gonna like it for sure  
You're gonna love it

Our life is for inspiration  
And memories are for construction  
Are we talking about you or something else?  
We have no clue  
And if we tell lies, we'll look at you straight in the eyes

We know we're gonna make it  
You know you're gonna like it  
We know it's the new hit  
We know we're gonna make it  
You know you're gonna like it for sure  
You're gonna love it

We know we're gonna make it  
You know you're gonna like it  
We know it's the new hit  
We know we're gonna make it  
You know you're gonna like it for sure  
You're gonna love it

We know we're gonna make it  
You know you're gonna like it  
We know it's the new hit  
We know we're gonna make it  
You know you're gonna like it for sure  
You're gonna love it

We know we're gonna make it  
You know you're gonna like it  
We know it's the new hit  
We know we're gonna make it  
You know you're gonna like it for sure  
You're gonna love it
