

If I Say (die With Me)

The Tellers

If I say I love you would you say "I do",
If I say the sea would you just say "blue",
If you see me falling would you please catch me,
And if you see me leaving would you follow me,

I know that life is just,
A silly silly silly little thing,
But if you stay tonight you could die with me...

If I say love song would you sing along
if I say it's for you would you say that I'm wrong
If you see me crying would you please kiss me,
And if you feel me dying would you die with me,

Come on die with me, die with me,....

I know that she will get away,
I know that she will get away,
Someday she says she'll get away,
I beg you please don't go away.

Come on die with me, die with me,....
