## Dreams

## **The Temper Trap**

One hand holds another, tangled fingers tell a tale I know every single line across your face so well We don't wanna, we don't wanna, wanna walk alone forever We don't wanna live without each other in the end

Where our dreams go, where our dreams go Where our dreams go, where our dreams go Where our dreams go, where our dreams go Where our dreams go, we follow

One hand breaks another, broken bones can always mend Loss will be a blessing that will turn us back again Cause we don't wanna, we don't wanna, wanna walk alone forever We don't wanna live without each other in the end

Where our dreams go, where our dreams go Where our dreams go, where our dreams go Where our dreams go, where our dreams go Where our dreams go, we follow

Where our dreams go There we will follow

Where our dreams go, where our dreams go Where our dreams go, where our dreams go Where our dreams go, where our dreams go Where our dreams go, we follow
