

## Firefly

## The Temptations

Firefly, Firefly  
Shine your light tonight  
Assist the Moon and Stars  
In helping us  
To ease our troubled minds

Firefly, Firefly  
Golden night of serenity, yeah  
show us the light naturally.  
And maybe she wont worry  
when there aint nothing I can do.

When sea runs dry  
and the stars fall from the sky  
She a vulnerable flower  
and she believes in me

Even when I had to lie  
I shouldn't have lie  
To make the world feel alright  
Firefly, Firefly

[Spoken]

Um,Um,Um, Sometimes I feel  
I have the weight of the world  
on my shoulders. But knowing the  
strength she sees in me  
I smile because she believes me.

Firefly, Firefly  
Golden night of serenity  
show me the light naturally.  
And maybe she wont worry  
when aint nothing I can do.

When sea runs dry  
and the stars fall from the sky  
She a vulnerable flower  
and she believes in me

Even when I had to lie  
I shouldn't have lie  
To make the world feel alright  
Firefly, Firefly

Ooh, Ooh, Ooh, Ooh, Firefly  
You make the world feel alright
