

Let Your Hair Down

The Temptations

Well, get down
Ah, ah...

Doctor and lawyer
Get up and let your reputation

Let your hair down
Mister business man
All work and no play
Makes Jack a dull boy

Hey, mister businessman
You're always on the go
You make your fortune yet
You're working harder
Than ever before

All those pills you're taking daily
Will never see you through
Cause none of them are
Prescribed for what's ailing you

It don't take no doctor, Lord
To see what you got
Your life can turn into
One great big knot

Let your hair down
Can you let it down
Let it down, let it down
Get up and let your reputation

Let your hair down
Don't you ever be ashamed
Of what you're doing
All work and no play
Makes Jack a dull boy

How do you, Mr Dibley?
Sometimes, you look such a pity
I got some advice for you
Take this record in your room

Let it down, let it down
Let your hair down
Let it down, let it down

All you got to do is let
The music take your mind
Show your partner
Anything they can do
You can do better

This is the dawn of the song
Where the boys take the throne
Down, down, down
Let it down, let it down...

Let your hair down
Oh, yeah...
