

# Somethin' Special

The Temptations

Say baby, would you do something for me?  
You know that dress I like?  
Put it on and let's do somethin' real special

I've been thinking just how beautiful you are  
You take good care of me  
And I thank you, girl, I notice every single thing you do  
(I thank you)  
God gave me a baby, every since he gave you

Ooh, you make sure that I have everything I need, baby  
To hold me over till you're right back here with me  
Right back with me  
I put aside this night for only me and you, baby  
To let you know that I appreciate you

Girl tonight, I wanna show you somethin' special  
A little candle light, we're gonna float across the floor  
I adore ya  
Girl tonight, I wanna show you somethin' special  
Put on the dress I like, we're gonna float across the floor  
Don't you know that I adore ya

Never stress me, always there for me, always care  
So I look forward to come home seeing you there  
Ain't no way I'm ever gone let you go  
Spending the rest of my life letting you know

Ooh, you make sure that I have everything I need, baby  
To hold me over till you're right back here with me  
Right back with me  
I put aside this night for only me and you, baby  
To let you know that I appreciate you

Girl tonight, I wanna show you somethin' special  
A little candle light, we're gonna float across the floor  
I adore ya  
Girl tonight, I wanna show you somethin' special  
Put on the dress I like, we're gonna float across the floor  
Don't you know that I adore ya

Come on baby, got a little candle light  
Got the wine sitting on the table, I'm ready to treat you right  
I know what you want, girl, I know what you need  
You need a little love and company  
Coming straight from me

Ooh baby, I'm gonna put on my dancing shoes  
I'm gonna love all over you  
Girl tonight, ooh, I'm gonna let you let down your hair  
I'm gonna kiss you everywhere

Girl tonight, I wanna show you somethin' special  
(Oh baby, come here)  
A little candle light, we're gonna float across the floor  
I adore ya  
Girl tonight, I wanna show you somethin' special

Put on the dress I like, we're gonna float across the floor  
Don't you know that I adore ya  
Oh yeah
