

Duet To Disembowel You

The Texas Drag Queen Massacre

Well I don't care what you say and do,
I raise my motherfucking middle finger to you,
I tell you no but you always persist,
Can't you fucking see that i think you're a dick.

I hate you so much will you please fuck off,
You only beat me down 'cause you think I'm soft,
One day soon I'll show your true colours,
Put your guts in a bag and post 'em to your mother.

I will disembowel you,
Just before you die,
I will disembowel you,
And play with your insides.

Well I knock you down, down to your knees,
'Cause all you are to me is a fucking de cease,
I wanna cut you open and look at your bones,
Play your ribcage like a xylophone.

Fucked up life and a fucked up persona,
Now i'm done and you're an organ donor,
I buried you in the garden today,
Finally for once you went away.

I will disembowel you,
Just before you die,
I will disembowel you,
And play with your insides.

I will disembowel you,
Just before you die,
I will disembowel you,
And play with your insides.

My knife your insides,
My knife your insides,
My knife your insides,
My knife your insides!
