

Liquid In, Liquid Out

The Thermals

Liquid in, liquid out
It's what my life was all about
It's what my life was all about, it was all about

Saturate, fill me up
Liquidate, empty my cup
It's what my life was all about
It's what my life was all about, it was all about

Salivate, ring the bell
Clean the plate, my slate as well
It's what my life was all about
It's what my life was all about, it was all about

Drank the sun, drank the rain
Down the river, down the drain
I never went, I never went without

Liquid in, liquid out
It's what my life was all about
It's what my life was all about, it was all about
