## Liquid In, Liquid Out

**The Thermals** 

Liquid in, liquid out It's what my life was all about It's what my life was all about, it was all about

Saturate, fill me up Liquidate, empty my cup It's what my life was all about It's what my life was all about, it was all about

Salivate, ring the bell Clean the plate, my slate as well It's what my life was all about It's what my life was all about, it was all about

Drank the sun, drank the rain Down the river, down the drain I never went, I never went without

Liquid in, liquid out It's what my life was all about It's what my life was all about, it was all about
