

# Not Like Any Other Feeling

## The Thermals

When you're ascending you glow  
When you hit a dead end you know  
It's not just a feeling you get  
It's a feeling that you fight against  
Repeat

At the top you relax  
You only wait patient the past  
You're only filling up space  
You only exist to be replaced  
Repeat

You only exist to be replaced

When you're descending you burn  
Every death, every lesson you learned  
It's not just a feeling you get  
It's a feeling that you learn to protect  
In time

You're only free on the ground  
When you fall you never make a sound  
It's not a feeling at all  
It's not like any other feeling you call  
Perfect

It's not like any other feeling you call  
Perfect

When you're in motion you own  
When you speed, every touch and tone  
It's not a feeling at all  
It's not like any other feeling you call  
Perfect  
Perfect
