

Deathless Man

The Tiger Lillies

I've been in the car
the car that was smashed,
I've been on the motorbike that crashed
I had me the cancer
and the heart attack,
I've been shot in the head
I've been stabbed in the back
Deathless man to life forever damned..
I'm a hundred and twenty
and I'm feeling fine,
my family and friends
have been dead for some time
I guess you could say
that life is unkind,
the longer I see it with the passing of time
I'm a deathless man
to life forever damned
Once I was dead but I was sent back,
that's when I saw something blacker than black
Now I'm immortal never in time
as was decreed by the divine - the swine
I'm a deathless man to life forever damned
I've had my throat had my throat cut,
but then my throat just healed up
An iron bar smashed over my head
it should have killed me but I am not dead
I'm a deathless man with life forever damned
Forever damned... a deathless man...
