

Getting Old

The Tiger Lillies

Getting old got no teeth
Still she's working in the streets
In the streets in the streets
Got no teeth just got gums
Suck you off 'til you cum
'Til you cum 'til you cum

Getting old
Getting old

In a bar she sits
There amongst the bums and gits
The bums and gits bum and gits
For a drink she shows her tits
For another sucks your dick
Sucks your dick sucks your dick

Getting old
Getting old

In a suburb south of Rome
Works this whore she's well known
She's well known she's well known
In a gutter near a drain
Sucks you off for your change
For your change for your change

She's getting old
Getting old

Well once was high now low class
All that's left an empty glass
An empty glass an empty glass
Once a beauty now a hag
On her vomit she does gag
She does gag she does gag
She does gag she does gag
She does gag she does gag
She does gag she does gag
She does gag she does gag
She does gag she does gag

Getting old
