

# Lobotomy

The Tiger Lillies

Lobotomy, it's gotta be, lobotomy  
Lobotomy, lobotomy, the best thing you can have  
You'll never be depressed again you'll never be sad  
All your pain is cleansed, now let's celebrate  
I tell you how you're gonna feel you're gonna feel great  
Lobotomy, lobotomy, you will have such fun  
The pain starts when you start to think you're so much better d  
umb  
So all you freaks now in the world line up against the wall  
This solution's perfect, for one and all  
Lobotomy, lobotomy, well it won't hurt will this  
And even if it does, you won't remember it  
All you freaks are perverts, perverts through and through  
So let them disengage your brains, the best thing they can do  
Lobotomy, lobotomy, for them you are a pest  
Lobotomy, lobotomy, you know it's for the best  
When between the temples you feel nice and numb  
That's when, my little freaks, you can have such fun  
Lobotomy, it's gotta be, lobotomy, it's gotta be  
Lobotomy, lobotomy, you know you will feel fine  
For when your brains don't work no more you join the divine  
No sense of irritation at what you think is unjust  
No longer when they lock you up will you in anger thrust  
Lobotomy, it's gotta be, lobotomy, it's gotta be  
Lobotomy, it's gotta be, lobotomy, it's gotta be  
Lobotomy, lobotomy, lobotomy, it's gotta be  
Lobotomy, it's gotta be, lobotomy, it's gotta be  
Lobooooooooooooooooo-tomy  
Then you'll all be vegetables, you might smell a bit  
But after your lobotomy you will not know it
