

# Lonely Schizophrenic

The Tiger Lillies

I'm a lonely schizophrenic I feel I've been abused  
By everyone I've been with I feel that I've been used  
Those voices these voices in my head they never stop  
These voices in my head they never stop  
I'm a lonely schizophrenic I'm friends with the Queen  
All her lords and ladies and the Arsenal football team  
Those voices those voices in my head they never stop  
Those voices in my head they never stop  
I'm a lonely schizophrenic I feel like suicide  
I've taken all the happy pills and still I want to die  
Those voices those voices in my head they never stop  
These voices in my head they never stop
