Lonely Schizophrenic

The Tiger Lillies

I'm a lonely schizophrenic I feel I've been abused By everyone I've been with I feel that I've been used Those voices these voices in my head they never stop These voices in my head they never stop I'm a lonely schizophrenic I'm friends with the Queen All her lords and ladies and the Arsenal football team Those voices those voices in my head they never stop Those voices in my head they never stop I'm a lonely schizophrenic I feel like suicide I've taken all the happy pills and still I want to die Those voices those voices in my head they never stop These voices in my head they never stop
