

Mourn

The Tiger Lillies

I've seen the meadows and the rain I've seen the laughter and the pain

I've seen you smile I've seen you blue I'll mourn for you

I've seen the gravestone and the hearse seen your coffin in the earth

I stood and wondered what to do I'll mourn for you

I saw disease eat you away now all I can do is pray

I've seen the fear the fear in you I'll mourn for you
