

# Over You

**The Tiger Lillies**

The angels in the sky well each one watched you die &  
each one sheds their tears for you.  
The angels in the sky well each one they do cry & each  
one they feel sad & blue.

Over you over you.

God reserves a place a very special place a very special  
place for you  
All of heaven mourns & each one is forlorn & each one  
they feel sad & blue.

Over you over you.
