

Punch And Judy

The Tiger Lillies

You see my foolishness and pride you see each good thing in me
die
You see your baby see her cry
You see the evil in me breed you see the bad the bad seed
You see your baby see her bleed
You hear my heart numbing lies as each good thing in me dies
Hear your baby hear her cry
You see my evil eating you you see my evil breaking through
You hear your baby cry for you
