

## Purgatory

The Tiger Lillies

In purgatory it's colder than your every vice your every evil p  
analysed there within the ice  
And after it has gripped you for a thousand years you'll get in  
to heaven have no fear  
In caves of ice naked you will dwell each movement an agony to  
tell  
And after it has gripped you for a thousand years you'll get in  
to heaven have no fear  
Your mind in this agony will be gripped till every vice from yo  
ur body is ripped  
And after it has gripped you for a thousand years you'll get in  
to heaven have no fear  
Be for ever grateful in purgatory you dwell for one day you'll  
be released in heaven you will dwell  
And after it has gripped you for a thousand years you'll get in  
to heaven have no fear
