

Venus

The Tiger Lillies

Venus you'll rape evil you shape
In this world honoured a king
Down to Hell now you'll go
Try there your power to fling

Two by two ungrateful souls
How the world you sucked
Raping each virgin you found
Leaving each one of them fucked

See all the hypocrites see all the priests
The politicians and kings
Take each one and with joy in your heart
Each one in hell fling

How many corpses lie in their graves
How many girls for you raped
The camel who goes through the eye of a needle
Not one of you God will take

You believe your god and country are right
Your god believe he is just
Your priests your murders sanctify
Each killer to Hell is thrust
