

## Just Like You

The Tiny

just like a flower you need your drink  
and no one in your way  
just as the water runs through your veins  
it makes you go insane  
but gets rid of all your pain

just like a flower you need your sunlight  
and no one in your way  
just as the radiation touch your skin  
it makes you go insane  
but gets rid of all your pain

just like a flower you need your drink  
and no one in your way  
just as the water runs through your veins  
it makes you go insane  
but get rid of all your pain

just like a flower you try my heart  
and you've never been betrayed  
i know your phantoms, i know your pain  
i can make them go away  
but it'll make me go insane,  
but get rid of all your pain
